Our Services

Beyond a Policy – Risk Reduction Plans that Enhance Your Bottom Line

At The Hartwell Corporation, we don't just sell you a policy and send you on your way.

Because your situation is unique, our experts at The Hartwell Corporation offer a comprehensive array of the industry's best risk management services and products, but we go beyond that. Employing a consultative, one-on-one approach to your needs, we help you structure a risk reduction plan that is most applicable to you and your organization. We help you identify those areas of your operation where your risk of loss is greatest, with solid advice on how to minimize your exposures.

The result? A better bottom line, now and in the future. As your risk profile improves, premiums go down along with the likelihood of future claims.

Comprehensive Offerings

While our products and services are comprehensive, designed to address every aspect of your risk management requirements, we divide them into three general areas:

- Commercial Insurance and Bonding
- Personal Insurance
- Life, Health, and Group Benefits

You can follow the links to the right to learn more about The Hartwell Corporation's offerings in these three areas. But there is always a Hartwell expert ready to discuss your risk management needs and help you sort through your options and opportunities.

The right plan for you.

The Hartwell Corporation. Exceptional People, Superior Results.
