208-459-1678**

After expenses, the proceeds from this event will be
donated to the AIA and ACEC.

“LOL” Webinar will help you limit your liabilities by identifying and breaking down the hot spots that excessively expand your responsibility for external parties and events. It will provide specific recommendations, strategies and tools to manage the project delivery exposures.

- Identify and discuss contractual and performance points that establish the basis for excessive responsibility for external factors.
- Develop contractual strategies to manage problematic contract clauses in themselves or through alternate drafting and strategies
- Learn strategies and tools to identify mid-project risk points and the process and actions to avoid expansion of responsibility while still serving the appropriate needs of the client and project

Featured Speakers

David A. Ericksen

President of San Francisco law firm of Severson & Werson

David has nearly 20 years of professional expertise including lead litigation and trial counsel that has made him an active resource for risk management, strategic planning and transactional matters. He specializes in the representation of architects, engineers, construction managers, design-builders and other construction professionals and is viewed as a trusted and valued resource for Design Professionals and their insurance carriers.

Continuing Education Credits

- * Architects and Engineers can each earn 1.5 HSW credits for the participation in this program.
